

**Liz Haven**

Liz Haven has been involved with water quality and supply issues in California over the last twenty years. She is currently a Deputy Director at the State Water Resources Control Board. Her work at the Water Board's Division of Financial Assistance includes strategic planning and implementation of the Water Board's financial assistance programs, including loan and grant funding for construction of municipal sewage and water recycling facilities, remediation for underground storage tank releases, watershed protection projects, and nonpoint source pollution control and reduction projects involving storm water pollution impacts to rivers, creeks, streams and beaches. Previously she worked in the Water Board's Division of Water Quality. She has been a registered geologist and certified engineering geologist in the State of California for the last 25 years.
